

Satellite Symposium „Embryo-Maternal Communication“
Sunday 23.09.2007

9:00-9:15	Welcome / Introduction (Wolf)
9:15-10:00	Key note: IFNT Overview (Spencer)
10:00-10:30	Coffee Break
10:30-11:00	Transcriptome signatures of the endometrium during early pregnancy (Bauersachs)
11:00-11:30	Proteomic strategies to decipher embryo-maternal interactions (Arnold)
11:30-12:00	Expression dynamic in the oviduct (Einspanier)
12:00-12:30	Embryo-maternal immune modulation (Ulbrich)
12:30-13:00	In vitro models for embryo-maternal communication (Boelhauve)
13:00-14:00	Lunch
14:00-14:30	Embryo transcriptomics (Adjaye / Niemann)
14:30-15:00	Embryonic genome activation and development at the blastomere level (Habermann/Sinowatz)
15:00-15:45	Key note: Bioinformatics/Systems biology (Zimmer)
15.45-16.00	Summary, Concluding remarks (Wolf)
